GITHINJI WILLIAM

JUNIOR WEB DEVELOPER

CHUKA, KENYA | 0703333971 | githinjiwilliamstudio.tech

PROFILE SUMMARY

I'm a Applied Computer Science student at Chuka University with a genuine obsession for building things that look great and work even better. While I'm comfortable across the full stack, my real passion lies in Frontend development—I love the challenge of turning complex ideas into clean, intuitive interfaces using React and Next.js. I've spent my free time building everything from finance trackers to e-commerce sites with Stripe, and now I'm looking for an apprentice role where I can jump into a real team, contribute to meaningful projects, and learn from the best in the business.

PROFESSIONAL SKILL

Project Management	Communication
Collaborative Teamwork	Problem Solving

TECHNICAL SKILL

Git & Version Control	Tailwind CSS & Vite
Next.js & TypeScript	RESTful API Development

EDUCATION

Applied Computer Science   2023 – current
Chuka University

Kenya Certificate of Secondary Education   2021 – 2022
Bs Luis Secondary

EXPERIENCE

E-commerce Platform
- Developed a high-performance e-commerce application using Next.js 14 and TypeScript.
- Integrated Stripe API for secure payment processing, including webhooks for real-time order status updates.
- Managed product state and shopping cart functionality using Redux Toolkit and optimized image delivery with Next/Image.

Professional Developer Portfolio
- Designed and deployed a responsive personal portfolio using Next.js and Tailwind CSS to showcase full-stack capabilities.
- Utilized Framer Motion for smooth UI transitions and integrated a headless CMS for dynamic project updates.
